

Russell Dudek

Division IT and AI Transformation Executive | ERP, Data, Cybersecurity, Manufacturing Systems

Pittsburgh, PA | 412.287.8640 | russelldudek@gmail.com | [linkedin.com/in/russelldudek](https://www.linkedin.com/in/russelldudek)

EDUCATION

Education | Bachelor of Science, University of Pittsburgh | Business Entrepreneurship, University of Pennsylvania

PROFESSIONAL SUMMARY

Operations and technology transformation leader with 20+ years across industrial manufacturing, software-enabled hardware, logistics scale, ERP workflows, customer support, and applied AI. Builds governed operating systems that connect business strategy, data quality, workflow discipline, cybersecurity awareness, and adoption. Strongest where decentralized teams need clear standards, practical systems, and measurable business outcomes.

TRANSFORMATION PROOF

- Connected physical work, ERP records, Jira issue flow, customer pain, team capability, and executive decisions into operating truth.
- Built an AI fabric across operations, GTM, product, software, HR, ERP, Jira, fleet intelligence, and leadership reporting.
- Reduced delivery cost 25% at Cardinal Building Products through AI-enabled routing and logistics workflow concepts.

PROFESSIONAL EXPERIENCE

Director of Operations | Vape-Jet / PDX Tech Services | Pittsburgh, PA / Remote | 2025 - Present

Lead AI-first operating transformation for a global software-enabled hardware company moving through scale.

- Built an AI fabric connecting operations, GTM, product, software, HR, ERP, Jira, fleet intelligence, and reporting.
- Use Odoo, Jira, production reality, support data, purchasing, and leadership cadence to reconcile operating truth.
- Support 1,000+ deployed machines through telemetry, throughput signals, issue routing, and proactive triage.
- Created Knowledge Turbine and Cultural Pillars to scale ownership, knowledge transfer, training, and accountability.

AI Transformation Advisor | DudeWorth | Pittsburgh, PA / Remote | 2017 - Present

Build human plus AI systems for executive decision support, workflow design, governance, and adoption.

- Built DudexOS with Core as an agentic harness for research, decision records, QA checks, and governed output.
- Design AI workflows that turn messy business context into roadmaps, artifacts, playbooks, and review loops.
- Use AI-assisted drafting, evidence checks, and brand-aware formatting to create the application materials here.

Operations Management / Site Leader | Amazon | Pittsburgh, PA | 2014 - 2018

Launched Amazon Prime Pittsburgh and built the operating cadence behind roughly 5M second-day orders annually.

- Achieved 99.98% on-time delivery through cadence, escalation, staffing models, standard work, and metrics.
- Led and developed 1,000+ Amazon employees through launch, peak volume, training, and performance cadence.
- Built launch routines for staffing, safety, throughput, quality, escalation, and customer promise execution.
- Worked across operations, robotics exposure, Prime Air, and Flex while building discipline at scale.

Director of Operations and Engineering Management | Compunetics | Pittsburgh, PA | 2000 - 2013

Led engineering, production, quality, customer translation, and manufacturing systems in a \$20M division.

- Managed high-reliability work for aerospace, defense, medical, semiconductor, and industrial customers.
- Built process controls, quality documentation, SOPs, and lifecycle discipline for regulated manufacturing.
- Translated complex requirements across customers, engineering, production, quality, and executive leadership.
- Applied Lean Six Sigma, root-cause analysis, AS9001, MIL-PRF-31032, and audit-ready governance.

AMETEK EXECUTION FIT

- Build ERP and data roadmaps that improve close visibility, operational reporting, supply chain decisions, and leadership cadence.
- Govern AI and analytics with clear ownership, human validation, access controls, and adoption metrics.
- Balance business-unit autonomy with enterprise standards across cybersecurity, data quality, shared services, and integrations.

ADDITIONAL PROFESSIONAL ROLES

Regional Director | Cardinal Building Products | Pittsburgh, PA | Dec 2018 - Dec 2023

Chairman of the Board | Enviro Social Capital | Pittsburgh, PA | Jan 2014 - Jan 2017

CMPT and EDS Pittsburgh Chapter Chair | IEEE | Pittsburgh, PA | Jan 2012 - Jan 2016

- Cardinal: led remote regional operations, CRM, SEO, digital commerce, routing, logistics, and customer growth.
- Enviro Social Capital: led board strategy for public-private infrastructure and a \$200M impact bond concept.
- IEEE: led technical programming across advanced electronics, STEM outreach, and intelligent manufacturing.

CERTIFICATIONS AND TECHNICAL SKILLS

Certifications | IBM Enterprise Design Thinking Practitioner | Google AI Essentials | Six Sigma | OSHA-10

Strategy | Division IT Roadmaps | ERP Transformation | Federated Governance | M&A Integration | BU Alignment

Systems | Odoo | Jira | ERP Workflows | Manufacturing Systems | Data Quality | Operational Reporting

AI and Data | AI Enablement | Analytics | Agentic Workflows | Telemetry Intelligence | Machine Vision | Governed AI

Risk | Cybersecurity Awareness | Access Controls | Compliance | Business Continuity | Change Management
